Ref: ICT/1010/132

Subject: Letter of Recommendation for PortingXS

To whom it may concern,

Provided below is a reference for the work undertaken between PortingXS and the Telecommunications Regulatory Authority of the Kingdom of Bahrain (TRA).

TRA engaged PortingXS in March 2010 through a competitive tender process to provide a Number Management solution. PortingXS did so through a modified version of their N-Base® product.

The Number Management solution was successfully implemented in July 2010 to the specifications required by TRA. Throughout the implementation process, TRA found the PortingXS team members to be very capable and supportive.

Therefore, TRA has no reservations in recommending PortingXS.

Yours Sincerely,

Ahmed Al Doseri
Director, ICT
