Gouda, 23-02-2009

LS,

PortingXS has been chosen after a vendor selection process to deliver the Web Portal Access for the customers of the Association COIN in the Netherlands.  
The Association COIN is responsible for both MNP and FNP in the Netherlands.  
From day one both the organization and the solution have proven to be as flexible and reliable as the promises they have made during the selection process. The web portal solution started Jan 2008.  
We are pleased to give a positive reference for the project.

With Regards

b/a   
Tiemen Brill

Chairman Association COIN
